State law mandates that local governments adopt certain policies to provide standards and guidance for their employees, in areas such as ethics, investments, and the prevention of sexual harassment. In addition, there are a host of other subject areas, such as computer and credit card use, in regard to which "best practices" dictate that each city and village should adopt policies and procedures tailored to suit the needs of their respective local government. This session will focus on the many programmatic areas where written policies are either required or highly recommended.

This class is eligible for credit in the Association of Town's Certified Town Official program.
